

BRUTALLY EFFECTIVE

KQB1200 Quick-Attach Brush

Up to 5 times as fast as manual sweep-up

- No need to change attachment
- Clean sweep in one pass
- Compatible with all common rigid log grabs and pallet tines

Save time and money when clearing debris on hard surfaces with the Klou KQB1200 Quick-Attach Brush. It has up to twice as many bristle rows as any competing product, providing a clean sweep in a single pass. It is compatible with Klou log grabs, most common rigid-mount excavator log grabs and also with pallet tines. This robust brush will sweep up all common yard and site rubbish, including:

- Wood chippings
- Brash
- Small branches
- Hedge clippings
- Mud
- General industrial debris
